

A professional portrait of Philip J. Miller, MD, FACS. He is a man with short dark hair, wearing a dark grey suit jacket, a light blue dress shirt, and a patterned tie. He is seated and looking slightly to the right of the camera with a neutral expression. The background is a plain, light-colored wall.

“Shakespeare never wrote a sonnet about the nose”

Philip J. Miller, MD, FACS

Rhinoplasty Surgeon with an International Reputation

PHILIP J. MILLER, MD, FACS

Board Certified Facial Plastic Surgeon
Voted Best Doctors in America™

While considered one of the top facial aesthetic surgeons in America, Dr. Philip Miller is particularly noted for his expertise in rhinoplasty. As a double board certified surgeon in both Head and Neck Surgery and Facial Plastic surgery, he is a leading expert not only in improving the look of noses, but also in increasing breathing ability. His intention is not to make an overly sculpted nose that possesses all of the hallmarks of an obvious rhinoplasty. On the contrary, his goal is to make a natural looking nose that enhances the more sensual facial features. Dr. Miller says, “Shakespeare never wrote a sonnet about the nose! The nose is not intended to be beautiful; it is supposed to blend in with the more essential facial features, namely the eyes, lips and cheeks. A bad nose draws attention to itself. A beautiful nose draws attention to the patient’s eyes!” But, results are what matter. Dr. Miller’s patients come to see him from all over the globe and some have undergone rhinoplasty procedures elsewhere and seek Dr. Miller’s expertise to correct both breathing as well as aesthetic issues.

Although he acknowledges a unique passion for rhinoplasty, Dr. Miller’s practice is not limited to nasal surgery. He performs neck and face lifts, cheek, chin and jaw implants, cosmetic eyelid surgery, Botox and facial fillers. He brings to these procedures a unique perspective that is responsible for his remarkably natural results.

“Patients do not just want to look younger. They want to look better. Youth and beauty are not synonymous. Patients do not want to look better at the expense of looking different from the view of themselves. The point is that people have unique features that define who they are. Those fundamental features need to be persevered and carefully enhanced. The goal here is three-fold: Look younger, look better, but keep looking like yourself.”

His results have also gained Dr. Miller an international reputation from his peers. Elected to serve on the Board of Directors of the American Academy of Facial Plastic Surgery, Dr. Miller is regularly invited to speak at their yearly meetings. He was co-chairman of the 10th International Symposium of Facial Plastic Surgery held in April 2010, and moderated the Rhinoplasty section at this year’s Multi-Specialty Foundation Symposium for Facial Aesthetic Surgical Excellence. Dr. Miller was also voted as one of New York’s Top Doctors by Castle Connolly Guide, a trusted source for identifying top doctors in America. Additionally, Dr. Miller has published several original articles, contributed book chapters, and has been voted in as a Best Doctor in America in 2007, 08, 09, and 2010.

Dr. Miller’s office is located at 60 East 56th Street in Midtown New York. You can find more information on his website www.DrPhilipMiller.com and schedule an appointment at 212.750.7100.
